

Nylon fabric
that's re-built
to last.

Performance and durability meets sustainability.

CORDURA[®] re/cor[™] RN6 Fabric

Innovation is at the heart of what we do. We reuse waste from the manufacturing process, while still supplying a fabric that is engineered to meet the performance and durability specifications of the CORDURA[®] brand. This 100% recycled nylon 6 yarn transforms pre-consumer waste into CORDURA[®] re/cor[™] RN6 yarn.

Characteristics

- Rugged – Good resistance to abrasion and scuffs
- Strong – very good resistance to tearing
- Size and Luster of qualifying yarns – 210D (235 dtex) 100% pre-consumer recycled nylon-6 filament, bright or semi-dull

Fabric type: Any woven construction – typically plain, ripstop, basket and dobby.

Ideal for use in a variety of products including bags and packs, luggage, equipment, accessories, and footwear.

CORDURA[®] re/cor[™] RN6 Fabric

Features:

- 100% pre-consumer recycled nylon-6
- Qualifying recycled yarns used in CORDURA[®] re/cor[™] fabrics are certified through the Global Recycled Standard
- A strong filament fiber
- Good abrasion and tear resistance
- Stylish versatility
